

Mustafa Aldelaimi

mustafaaldelaimi.com

(London, England)

PROFILE

Self-driven, highly motivated and excited to gain knowledge through learning and new experience

EXPERIENCE

Designed and created personal e-portfolio using HTML and CSS

- Took a holistic approach when designing my code to produce an organised e-portfolio resulting in code which was easy to interpret.
- Proved to be useful when debugging, as I was able to recognise where each of the bugs were located in the code based on the appearance of the website.
- Reusable code + easy interpretation makes additions or changes to website simple and swift
- Understood the importance and usefulness of planning and structuring my code

Designed and created Snake Game using JavaScript, HTML and CSS

- Demonstrated proficient problem-solving skills when analysing the code, researching programming concepts and syntax to aid creation, and debugging of the code.
- Learnt in depth how to apply JavaScript to a website to make it more interactive and dynamic

FreeCodeCamp's JavaScript Algorithms and Data Structures course

- 300 hours consisting of Algorithm Scripting, Functional Programming, Object Oriented Programming, Debugging code, and application of Regular Expression

Datacamp's SQL Fundamentals course (21 hours).

- Learnt how to quickly summarize, join tables, and use window functions and built-in PostgreSQL functions to analyze data

SKILLS

Proficient

- JavaScript, HTML, CSS

Familiar

- TypeScript, React, Python, SQL

EDUCATION

Pimlico Academy – London 🇬🇧 A-level 09/2021

- Chemistry - A
- Mathematics - A
- Biology - B

Pimlico Academy – London 🇬🇧 GCSE 09/2019
